PROFILE

I create responsive, creative and engaging websites. I turn design concept into reality with code and making websites user-friendly. I am not just a developer; I am an architect of digital experiences, shaping the way users interact with the websites.

EDUCATION

D-Pharmacy,	**Passed with 60% in 12th,**	**Passed with 72% in 10th,**
RGPV University,	**Vasudha Vidhya Vihar ,**	**Guru Sharan Academy**
Indore.	**School, Karhi.**	**School, Pipliya.**
2020 – 2022	2019 – 2020	2017 – 2018

EXPERIENCE

Digital Computing®

Fab. 2023 to Aug 2023 Intern

Responsibilities - Design and develop UI/UX

Marks Predictor Software

Marks Predictor is a quiz and student progress analysis web app used to predict results before exam, I have worked on UI part using reactjs and tailwind css, I have worked on dashboard, student choice base questions, student registration, profile and questions module.

Raju Framing Website

Raju Framing was a project I worked on as a freelance web developer. The client wanted an e-commerce website to sell custom frames online.
